

YOUTHWORKS SUMMER 2009 WORKSITE INTEREST FORM

Planning for summer 2009 begins **NOW**. Becoming a YouthWorks worksite is an excellent way to mold our future workforce. The ideal summer work experience centers on youth development and will help youth link their secondary academic preparations and the summer work experience.

Youth Development focuses on a young person's assets; communicates high expectations; provides opportunities for leadership; encourages a sense of personal identity; broadens a young person's perspective; provides safe surroundings; and connecting with caring adults.

If you are interested in having a YouthWorks staff member visit your site between October and January to discuss this opportunity please complete the information below:
